CASSANDRA

SOCIALLY ENGAGED STORYTELLING

CHOOSE YOUR PERFORMANCE

WEDNESDAY 18 JUNE 16:30-18:00 UNIVERSITY ROMA 3

The Cassandra Project empowers young storytellers from five European countries to become socially engaged performers, ready to inspire audiences across international stages. Through intensive training in Belgium and the Netherlands, 15 talented participants developed powerful, personal stories rooted in social issues and community research. With the guidance of experienced mentors, they've already captivated local audiences—and now, they're bringing their voices, creativity, and passion for change to Rome and beyond.

The performances will take place simultaneously in 5 groups of 3 performers. Below you find an overview of the different groups. For more info on their stories, please use the QR code.
